[Učenici iz Niša projektovani rukavicu za prevođenje znakovnog jezika](#)

DESCRIPTION

The **Electrical engineering school "Mija Stanimirović" in Niš** (a VET school) designed the **project "Glove for translating sign language into text format"** developed by learners to assist their **peers who are hearing impaired**. The team of students who designed it consisted of Nikola Ranđelović, Luka Rakić and Ivan Ćirković, with mentor Ivana Miladinović.

This project demonstrated the **competencies of empathy, language and communication skills, civic spirit, and the valuing of human dignity** of the students.
