Voting 1/2

Following the announcement by the President of the list of candidates and the opening of the ballot, the terminal screen displays the following information:

- the purpose of the vote;
- the list of candidates;
- **the number of seats to be filled** ③ (at the bottom right of the screen).

Please select the name of the candidate of your choice by pressing the blue cursor buttons ④ or the touch buttons at the bottom right of the screen.

You express your vote by pressing the “+” voting button (green button on the terminal) ⑤.

The blue voting light ⑥ switches on, indicating that you have voted, and an asterisk (★) appears in front of the name of the candidate for whom you voted. In order to respect the secrecy of the ballot, moving the cursor removes the asterisk display.

It is not possible to vote against (-) a candidate (red button on the terminal) ⑤.

To abstain, press the button “0” (central button in the terminal) ⑤.

You can change your choice at any time as long as the President has not announced the closure of the ballot: re-select another candidate’s name using the cursor and press the ‘+’ voting button (green button on the terminal) ⑤.

Verification of the vote

By pressing the button displaying the votes casts on the left ⑦ you can view your vote.

An asterisk (★) appears in front of the name of the candidate for whom you voted.

It is no longer possible to vote after the President has announced the closure of the vote.

Please do not withdraw your voting card during a ballot. Your vote cannot be taken into account in case of premature withdrawal of the card.
