NOVEMBER 2020

# A recap - “The Foothills of Genocide”

# THE UK APPROACH TO ONLINE HATE CRIME

## THE CHALLENGES

- Jurisdiction
- Capacity versus Prevalence
- Disparity of Legislation and policy
  - We don't even agree what hate speech is
- Lack of International Collaboration
- Disparate Industry
- Pace of Change
- Emerging as area of interest for academia but slow results
  - Long-term impact on communities
  - Motivation on Perpetrators

# Adama Dieng

## UN Special Advisor on Genocide Prevention

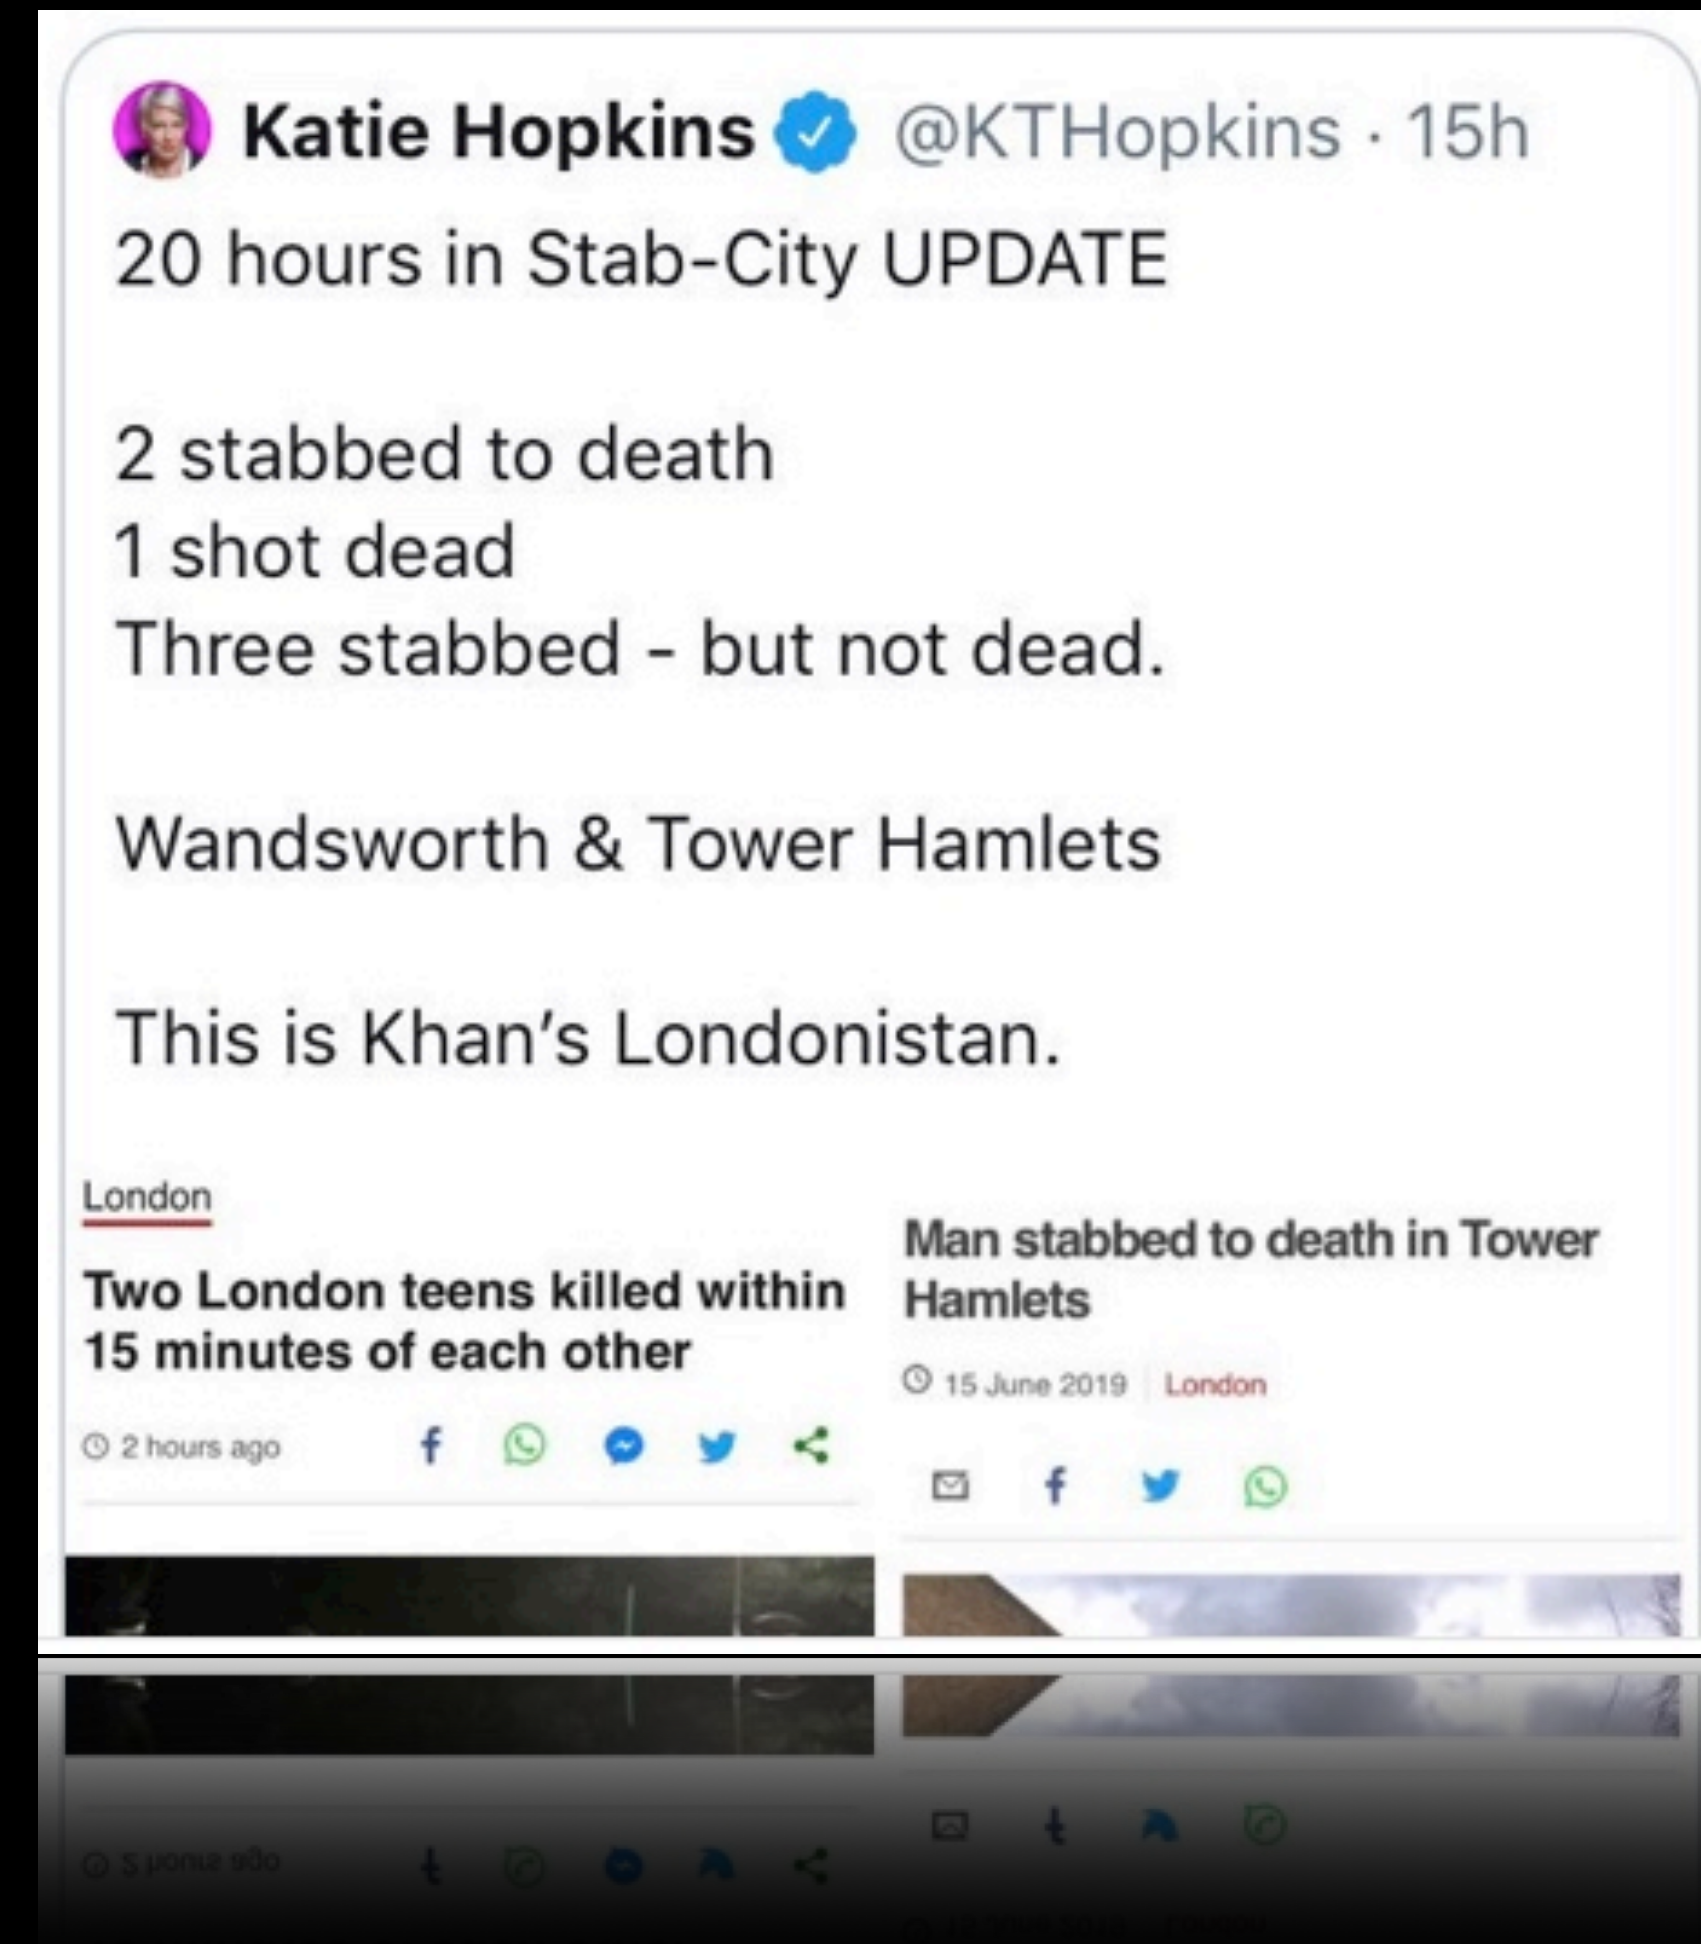

# Assessing Harm

Need to consider:

- The speaker
- Their reach
- The platform
- The audience
- How vociferous is the speech?
- Level of influence

The most vociferous is not necessarily the most harmful

## SAFETY TIPS

We have been made aware of a WhatsApp message circulating which asks that Muslims stay indoors on **April 3**.

You may have heard these rumours in the classroom, outside of school or on social media.

We recommend that you continue your daily routines but remain alert.

To help keep you and others safe on any day of the year you can follow these basic safety tips.

## KEEP IN MIND:

Always be aware of your surroundings

Let your parents or guardians know where you are and how to contact you.

Stick to busy well-lit public routes, avoid shortcuts & never accept a lift from someone you don't know.

On trains, look for busy carriages and stay on the lower deck of a bus if possible, near to the driver.

Don't be embarrassed to make noise to attract attention and scare off anyone who is threatening you.

If anyone is harming or bullying you then tell an adult you trust such as a teacher or your family.

Wherever you are, be aware of how to make an emergency telephone call.

**In an emergency always dial 999**

The actual incident happened 8 months ago and is not related to any current threats. Here is the news article and you'll see the scene is the same. Please retract/discard this as it just causes unnecessary fear.
