

INTERPLAY BETWEEN CYBERSECURITY AND CYBERCRIME: A LAC PERSPECTIVE

César Moliné Rodríguez

LAC4: Purpose and functions

- LAC4 is a training and knowledge hub for sharing EU's collective expertise and building up regional capacity and collaboration in cybersecurity and cybercrime.
- Physical training facility located in Santo Domingo, the Dominican Republic.
- LAC4 is:
 - State-of-the-art hybrid training facility
 - Capacity to develop and provide technical, policy and strategic level courses and simulation
 - Platform for doctrine development and research coordination
 - Channel to cyber capacity building projects, training modules and materials developed in the EU

Cybercrime as the gateway for cybersecurity

- Allows countries to make considerable advances in a short time.

Vs.

- Creates competing forces in areas such as resource allocation, digital forensics, information sharing, and even on critical information infrastructure protection.

- Cybercrime as a gateway for cybersecurity
- Historical events have eroded trust in LEA
- Voluntary or mandated reporting is aiding in CSIRT/LEA cooperation
- CCB as a tool for improving

A framework for LEA / CSIRT cooperation
