- Child Sexual Abuse Material (CSAM) volume/circulation continues to increase
- Self-generated exploitation material (SGEM) more common and problematic
- CSEA to order including via live streaming \rightarrow new commercial models
- Detected CSAM shows increase in reports relating to Global South
- Most CSAM still hosted on image hosting sites on open web
- Darknet bulletin boards increasingly popular for sharing
- Offences may involve multiple tech platforms and services
- Increased use of social media apps used to victimize children
- Continued use of anonymization and encryption by perpetrators

- All age categories but majority pre-pubescent (CSAM)
- More severe abuse associated with younger victims (CSAM)
- Younger children falling victim to OCSEA inc. grooming, sexual extortion
- No clear profile of perpetrators
- Perpetrators include under 18s
- Online dimension of CSEA
 - Expands demographic and relationships between victims & perpetrators

End Violence Against Children WE ARE LOOKING FOR TECHNOLOGY SOLUTIONS TO MAKE DIGITAL SPACES SAFE FOR CHILDREN

THE FOUR OBJECTIVES:

- Detect, remove and report images and videos of child sexual abuse
- Block adults' access to children on digital platforms intended to sexually abuse them

Stop live-streaming of child sexual abuse

Prevent online sexual abuse of children
